

YED FRANCOIS YBAÑEZ CAGANG

Malaybalay City, Philippines | francoiscagang@gmail.com | 09639775960

PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate with a solid foundation in workflow automation, system integration, software development, APIs, databases, and AI-powered applications. Experienced in building and troubleshooting automated workflows using n8n, make, webhooks, REST APIs, PostgreSQL, Gmail, Google Sheets, and third-party integrations through personal projects and hands-on development. Proficient in Python, JavaScript, PHP, Laravel, React, Node.js, MySQL, MongoDB, Git/GitHub, and Docker. Comfortable researching documentation, troubleshooting technical issues, learning new platforms, and developing practical systems independently.

EDUCATION

Bukidnon State University
Bachelor of Science in Information Technology
Latin Honor: Cum Laude

- Relevant Coursework:** Software Engineering, Database Management Systems, Web Systems and Technologies Systems Analysis and Design, Artificial Intelligence

Malaybalay City, Bukidnon
June 2026

EXPERIENCE

Software Development Intern (On-the-Job Training)
Livro System Inc.

- Assisted in developing web-based applications and enhancing school portal features using the Frappe Framework.
- Supported hardware and software integration involving RFID systems and Raspberry Pi devices.
- Collaborated with developers in testing, debugging, and deploying system enhancements.

Cagayan De Oro City, Misamis Oriental
2026

PROJECTS

Smart Baby Crib: Reducing Fall Risks of Toddlers Through Image Detection Using YOLOv8
Technologies: Python, YOLOv8, Raspberry Pi, Coral Edge TPU, Firebase

- Developed an AI-powered smart crib for real-time detection of toddler climbing attempts using YOLOv8.
- Integrated Raspberry Pi, Coral Edge TPU, and Firebase for edge-based processing and real-time mobile notifications.
- Collaborated in system testing and optimization to improve detection performance and overall reliability.

2024-2025

Academic Mentoring System (Freelance Project)
Technologies: Laravel, PHP, MySQL, Tailwind CSS, Google OAuth

- Developed a web-based academic mentoring portal that streamlined student referrals, mentor matching, and mentoring workflows for Bukidnon State University.
- Implemented role-based access control, Google authentication, and automated mentoring workflows.
- Integrated digital contracts, session logging, and Google Forms to improve mentoring management and record keeping.

2026

Expense & Receipt Automation Workflow
Technologies: n8n, Google Gemini, Google Sheets, Gmail, Telegram

- Developed an automated workflow for processing expense and receipt information and converting data into structured records.
- Implemented data normalization, validation, conditional logic, and automated record processing.
- Integrated Google Sheets for data storage and Telegram for automated notifications.
- Configured error handling and troubleshooting for failed workflow executions and third-party integrations.

2026

AWARDS AND HONORS

- Cum Laude** — Bachelor of Science in Information Technology, Bukidnon State University
- 4th Best Poster Award (College of Technologies)** — 5th Student Research Conference, Bukidnon State University (2026)
- Patent Filing Support Recipient** — Smart Baby Crib: Reducing Fall Risks of Toddlers Through Image Detection Using YOLOv8, Bukidnon State University
