

YED FRANCOIS YBAÑEZ CAGANG

Malaybalay City, Philippines | francoiscagang@gmail.com | 09639775960

PROFESSIONAL SUMMARY

Cum Laude Bachelor of Science in Information Technology graduate with a solid foundation in software development, web technologies, database management, and AI-powered applications. Proficient in Python, JavaScript, PHP, Laravel, React, Node.js, MySQL, MongoDB, Git/GitHub, and embedded systems through academic projects, freelance development, and hands-on learning. Eager to apply technical expertise, continuously expand my skill set, and contribute to collaborative and technology-driven teams.

EDUCATION

Bukidnon State University
Bachelor of Science in Information Technology
Latin Honor: Cum Laude

Malaybalay City, Bukidnon
June 2026

- Relevant Coursework:** Software Engineering, Database Management Systems, Web Systems and Technologies Systems Analysis and Design, Artificial Intelligence

EXPERIENCE

Software Development Intern (On-the-Job Training)
Livro System Inc.

Cagayan De Oro City, Misamis Oriental
2026

- Assisted in developing web-based applications and enhancing school portal features using the Frappe Framework.
- Supported hardware and software integration involving RFID systems and Raspberry Pi devices.
- Collaborated with developers in testing, debugging, and deploying system enhancements.

PROJECTS

Smart Baby Crib: Reducing Fall Risks of Toddlers Through Image Detection Using YOLOv8

2024-2025

Technologies: Python, YOLOv8, Raspberry Pi, Coral Edge TPU, Firebase

- Developed an AI-powered smart crib for real-time detection of toddler climbing attempts using YOLOv8.
- Integrated Raspberry Pi, Coral Edge TPU, and Firebase for edge-based processing and real-time mobile notifications.
- Collaborated in system testing and optimization to improve detection performance and overall reliability.

Academic Mentoring System (Freelance Project)

2026

Technologies: Laravel, PHP, MySQL, Tailwind CSS, Google OAuth

- Developed a web-based academic mentoring portal that streamlined student referrals, mentor matching, and mentoring workflows for Bukidnon State University.
- Implemented role-based access control, Google authentication, and automated mentoring workflows.
- Integrated digital contracts, session logging, and Google Forms to improve mentoring management and record keeping.

Apostle Burial Plan Services Management System (Freelance Project)

2026

Technologies: Laravel, PHP, MySQL, JavaScript, Bootstrap

- Developed a multi-tenant Laravel web application for managing branch operations and user accounts.
- Implemented dynamic tenant database provisioning and role-based authentication.
- Collaborated with the client to gather requirements, develop features, and perform system testing.

AWARDS AND HONORS

- Cum Laude** — Bachelor of Science in Information Technology, Bukidnon State University 2026
- 4th Best Poster Award (College of Technologies)** — 5th Student Research Conference, Bukidnon State University (2026) 2026
- Patent Filing Support Recipient** — Smart Baby Crib: Reducing Fall Risks of Toddlers Through Image Detection Using YOLOv8, Bukidnon State University 2026
